

NORDGEN EXCURSION

Wednesday the 20 September 2017

Programme

- 08:15** Departure from Silkeborg.
- 09:00** Kaptajn Schultz Plantage, Engesvang:
Brief presentation of HedeDanmark (HRW).
- 09:15** Test plots growing 6 - 7-year-old 'power culture' of traditional and exotic species. The seed orchard is situated 30 minutes from Silkeborg, and the test plots are situated next to each other, and consequently, suited for demonstration (HRW).
- 10:10** Departure from Engesvang for Tvilum.
- 10:50** Presentation of HedeDanmark's department of seeds.
Tour in the 'production', where seeds from 75 - 100 different species are handled (MOK).
- 12:00** Lunch.
- 12:45** Departure from Tvilum for Laugesens Plantage (Laugesen's Seed Orchard).
- 13:15** Laugesens Plantage, Bjerringbro: Operation of seed orchards; *Larix eurolepis* (new genetics - how to combine hybrid production with broad genetics?), *Alnus glutinosa*, *Fagus sylvatica*, *Acer platanoides*, *Abies lasiocarpa* (new genetics, new form of cooperation across land borders) (MOK and ØYV).
- 14:30** Departure for Silkeborg.

Persons in charge of the excursion

- HRW: Rasmus Willumsen, business developer, HedeDanmark
MOK: Morten Krogh, department and sales manager, HedeDanmark
ØYV: Øyvind Meland Edvardsen, senior adviser, Stiftelsen Det norske Skogfrøverk

THE EXCURSION WILL INFORM YOU ON

- Power culture
- Seed handling
- Hybrid production combined with broad genetics
- Cooperation across land borders
